Description of Sale Items _____

Parking requirements (do you unload and need to park a trailer or truck?) _____

What will your booth setup look like? Please draw a diagram of your booth and show if you use a trailer behind it, etc.

We suggest that you bring a canopy or tent for wind or rain protection.

Vendors will provide their own tables and chairs. There is no electricity, so vendors will need to provide a generator if electricity is needed.

Dress for the weather! We have a bathhouse for toilet facilities and a small store for snacks and drinks. There are two restaurants across the street from the campground. 765-737-6585
